EDUCATION

MINERVA UNIVERSITY

BACHELOR IN COMPUTER SCIENCE AND BUSINESS

SAN FRANCISCO, USA

EXPECTED MAY 2029

EXPERIENCE

Campus Lead

OpenAI

San Francisco, USA

September 2026 - Present

- Selected as one of 170 Campus Leads nationwide to evaluate emerging OpenAI tools (ChatGPT, Codex) and translate them into practical workflows for teaching, learning, building, and research.
- Co-leading Minerva's Student Collective team, planning a year-long program of 8 hands-on workshops, 30+ Studio Hours, and 2 semester showcases on ChatGPT and Codex workflows and student-built projects.

Freshman Class Representative, Career Development

Minerva University

San Francisco, USA

September 2025 - May 2026

- Led communications and delivered 10+ career programs for 100+ students, achieving 95% event capacity and 98% satisfaction.
- Organized and ran 10 corporate site visits to YouTube, Meta, Waymo, Gensler, and others, connecting 80+ students with industry teams.

Civic Partner

Bill Sorro Housing Program

San Francisco, USA

October 2025 - May 2026

- Interviewed 20+ users and community representatives to identify key barriers in the SF DAHLIA Housing Portal, then designed an 8-page guide for 1,000+ older adults, reducing application completion time by 65%.
-

PROJECTS

PII Identifier

Python, Presidio, spaCy, OpenCV, Tesseract

In Development

[GitHub](#)

- Solo-built a fully local PII detection and redaction web app (CSV, text, images) on Presidio and spaCy with custom policy rules, Tesseract OCR, and MediaPipe/OpenCV face detection; covered by a pytest suite.
- Trained a custom spaCy NER model on a seeded synthetic corpus (440 docs, 793 labels) and authored a 27-category redaction policy from 105 hand-adjudicated detections, reaching 100% recall / 100% precision on a held-out gold set (25 docs) vs. 41% / 45% for stock Presidio.

Heroes Diaries, Co-Founder

Python, Ren'Py

Moscow, Russia

October 2023 - May 2024

- Wrote the Python/Ren'Py branching logic for a narrative game with 30+ decision paths and led its 12-person team; secured a government partnership and distribution that drove 5,000+ downloads.
-

SELECTED HONORS

- Winner, "First Steps in Science" and "World of My Research" international conferences; finalist, "Deeds of the Firsts" (5% acceptance rate).
-

SKILLS AND LANGUAGES

- **Programming:** Python, SQL, C, C++, Java, JavaScript, HTML/CSS
- **Tools:** Git, spaCy, Presidio, OpenCV, MediaPipe, Tesseract, pytest, Ren'Py
- **Languages:** English (fluent), Russian (native)
